## Executive Overview

# M111 Dynamic Positioning and Automation Executive Overview – Functions

### Course Description:

An overview course considering the operational aspects of Dynamic Positioning and Marine Automation systems, with a focus on the functionality and operation aspects of such systems.

The course can be combined with M110 Executive Overview (systems) to give a fuller understanding of the technical aspects of the system.

### Learning Outcomes:

To gain an overview of the operational principles of Dynamic Positioning (DP) and Vessel Automation.

### Prerequisites:

Staff attending should be familiar with vessel operational procedures.

### Participants:

Vessel managers, superintendents, office-based staff, project staff.

### Duration:

1 day
