Dynamic Positioning (DP)

M404

Dynamic Positioning Software Familiarization

Course Description:

DP Software Familiarization can be booked for either C-Series or GE Seastream* software. This course is intended for persons with an interest in the user interface of GE Dynamic Positioning Systems.

Learning Outcomes:

Introduction and principles of operation, control console and displays, along with DP workstation practical exercises.

Prerequisites:

Basic understanding of DP systems

Participants:

This course can easily be adapted to the target audience, ranging from operators who are looking to improve their knowledge of the system to other personnel who would like to have a better understanding of DP operations but have little to no operational experience

Duration:

2 days

GE Energy Connections – Power Conversion
